Concern	Customer states Can we please have the current rideshare hardware removed from the Tundra that I have up there? This vehicle will be part of that test pilot where we will install a different kind of hardware (since Continental still has not provided us with the software package needed for the current hardware). The new hardware is the one that the installer is flying in for and I will reserve a high bay. Ill let you know when that will be taking place so you can determine if Ryan will be able to join.
